EDUCATION

Non-school-based Experimental Education at Senior High School Level (Currently)

2024 - 2025

EXPERIENCE

SITCON 2024 Development Team Member

- Coordinated closely with another development team member and designers
- Create a website that reaches over a thousand unique visitors

SKILL

Front-end

- Familiar with HTML, CSS, and JavaScript
- Experienced in front-end developing with Vue.js and React.js
- Skilled in utilizing Next.js and Nuxt.js to build fast SSR applications

SIDE PROJECTS

Minecraft Command Generator

A simple website designed for visually editing JSON Minecraft commands.

<https://command.dada878.com>

- The editor leverages React and dnd-kit to ensure a smooth and intuitive user experience for visual editing of commands.
- Use React.js + Typescript + TailwinCSS

My Personal Website

My personal website showcases some of my information, where you'll find a collection of posts I've written.

<https://dada878.com>

- Utilizing a custom CI/CD pipeline, fetch blogs and save their images from GitHub to the server, improving SSG website speed
- Optimized for good SEO, it can be easily found through Google search
- Use Nuxt.js + Vue.js + SCSS + Typescript
